**Municipal
Corporation Kadapa**

Commissioner's Editorial

Commissioner
B.Siva Reddy

Serving society in the hands of Governance is a compelling tool of bureaucrats who has to abide the laws of democratic constitution continuously striving to obtain the lively end results when seen in ground reality. In doing such, efforts are not being reflected or projected on large scale. As a consequence, the bridge connecting the thin spectrum of society and Government is the transparency medium. In concentrating this transparency element of governance, information is the base of sub-structuring any policy or schemes which has to reflect in modern digital platforms that has closer and quicker access says commissioner in believing the inform and motivate principle.

Smart Schooling with Digital Mode

In aiming to provide quality education to the students of municipal schools by providing world class infrastructure, Municipal Corporation Kadapa (MCK) had undertaken the Transmogrification of eight Municipal Schools into virtual and digital mode based educational setup under the aegis of Municipal Administration Department, Government of Andhra Pradesh. It is envisioned to enable two way interactive approach among students and teachers and also propels the student's understanding capability through visual representations of Multimedia Educational Digital Content. Currently the corporation was close to the acceptance of qualified tenders and is expected to ground the installation of infrastructure soon, the sources said.

PURASEVA – APP (Municipal Services at your fingertip)

In delivering the municipal services assuring the finite elements of governance in reaching citizens fingertip access is now physical in the form of Puraseva application. This tool enables one to lodge grievances, payments on utility charges, property and vacant lands in a single click with the smartphone. Access to application is sourced from Play Store as illustrated in the pictograph attached below. Taking this initiative to public, municipal employees are in duty in propagating and projecting the facility through awareness campaigns at educational institutions such as schools & colleges, residential areas, public & semi public areas.
